

RACCOON TECHNOLOGIES INCORPORATED

Main Office: 130 N COUNTRY CLUB RD, ADA OK 74820

OPEN LETTER: Sept 25th 2021

FOR IMMEDIATE RELEASE

GENERAL MOTORS CORPORATION

RACCOON TECHNOLOGIES INCORPORATED received an article regarding a memo in the WALL STREET JOURNAL issued by GENERAL MOTORS on September 24th 2021 via the company FACEBOOK INC. The Wall Street Journal reported that you intend to cut pay to persons who refuse to release their HIPPA medical records to your company for review and approval of confidential medical status and treatment.

Our response to this was to suggest that we would take our property made by your company and destroy it as a potential protest, but your property already does that on its own. The tone of this, to the acronym "FOUND ON ROAD DEAD (FORD)" and objection of our United Kingdom and Hong Kong office to purchase or use of your vehicle after it nearly led to the death of one of our Directors in 2001, substantially was a LAWFUL CLAIM having control only over our OWN PROPERTY and the freedom of other FORD, CHEVROLET, and GM branded vehicles to do the same with their own property as they wish.

FACEBOOK INC. did then SUSPEND OUR BUSINESS ACCOUNT for this remark for thirty (30) days, interdicting our ability to use the platform and communicate with customers there, and to damage our corporation in RETALIATION for your conduct.

This is an act of RACKETEERING by "GENERAL MOTOR CORPORATION" and "FACEBOOK INC" jointly made, and will result in the following actions:

1. Our company will no longer pay for GENERAL MOTORS branded vehicles as part of our compensation process for new hires, a custom prior.
2. Our fleet of GENERAL MOTORS vehicles will be disposed of for alternative brands.
3. FACEBOOK INC. present and past employees will be terminated from all WARRANTY, SERVICE, BENEFITS, PARTS, and other REPLACEMENT or SALE offers, and such sales void and conditioned no present or prior employment by FACEBOOK INC in any capacity, whether 1099 or W2 or by such proxy firm an employee or contractor thereof.
4. FACEBOOK INC. employees and former employees will be barred from employment at RACCOON TECHNOLOGIES INCOPRORATED and its partners, for racketeering to extort with conspiracy against theft of medical records.
5. We regret the end of our relationship with FORD and FORD MOTOR COMPANY, our preferred brand, but we will not support medical discrimination or tolerate retaliation against businesses or persons who invoke their right to protest and to use their own property as they see fit and to such ends no law or statute violation in the doing of which suggested by us to warrant this commercial criminal Interstate racketeering by GENERAL MOTORS and FACEBOOK INC. against us.
6. We will seek a buy-back of our existing vehicles at original purchase price in settlement via the FEDERAL TRADE COMMISSION and formal complaint of INTERSTATE RACKETEERING by the actions of FACEBOOK INC. to suspend property rights of vehicle owners in their own use of their titled property and for political purposes a criminal coercion of ordinary and protected MEDICAL RIGHTS of workers in the United States from compensation based on medical status.

RACCOON TECHNOLOGIES INCORPORATED

Main Office: 130 N COUNTRY CLUB RD, ADA OK 74820

When "community standards" extend to the taking and control of private property, they are foreign to the United States and an abuse of the commission of the public trust granted to any UNITED STATES CORPORATION, subject Antitrust and dissolution on the pleasure of the Executive Office under the INTERSTATE COMMERCE CLAUSE.

Having overseen the breakup of BELL TELEPHONE and its administration, I would urge you to consider this as sanction if you proceed with "medical condition payroll and compensation penalties" in your firm. I would remind you of the NATIONAL SOCIALIST WORKERS PARTY slogan "It is for your Health" still affirms hatred and tight fists among the veterans who fought their way to Berlin in 1944, and your actions are a hair's width from those offensive policies now.

Corporations that cannot comply with workers rights and suggest penalties to coerce medical procedures have no place in the American industry, upon our roads, or in any enjoyment of any protection from full taxation and forfeiture of their equity, a property of the Public Trust and subject to its commission or dissolution without compensation of any kind to any person on breach of that commission and its regulations, laws, and express protections of our workers liberty and choices.

Medical information and status is NOT a factor open to your demand, and your conduct stigmatizes persons as if they were HIV positive or carried similar risk for declining procedures, a right afforded them against government control of their living person. GENERAL MOTORS is a *cestui qui trust*, a creature of the court and an anatural person made by legal registry only, so made an *ens legis* party. You may suggest actions against the estates of the worker, but may not extend your control to suggest or deny equal compensation for equal work based on the living body of the agent who is a separate person and not subject to your control over their medical choices or medical needs. Persons with immune disorders or other conditions NOT CLASSIFIED IN THE UNITED STATES SOCIAL SECURITY REGISTRATION FOR DISABILITY BENEFITS do exist, and you may not disbar their medical doctor or physicians advice to penalize them for refusing a course of treatment. To do so is medical practice, and criminal.

We suggest you end your relationship with FACEBOOK INC., and file formal complaint with the FEDERAL TRADE COMMISSION for this 18 USC§1961 racketeering activity carried out by the firm on behalf of GENERAL MOTORS employees, in support of illegal conduct, and themed a criminal abuse of the INTERSTATE COMMERCE clause.

Sincerely, a former Ford customer (2015 MUSTANG)
