

**NOTICE:
ILLEGAL CONDUCT TO EXTORT BY LOSTSERVER GROUP**

Activity to extort RACCOON TECHNOLOGIES INCORPORATED in a fraud prohibited by TEXAS TITLE 8 Section 37.03 "aggravated perjury" continues in overt acts November 14 2021 and April 4 2022 commercial identity theft.

Contractors responsible are known competitors named in a letter of extortion made Sept 7 2011 and public fraud using ATLANTIC.NET and SHARKTECH.NET servers at COGENT COMMUNICATIONS, an NTT CORPORATION, in April 2022.

Threats incorporate REYKJAVICK (ICELAND), DALLAS (TEXAS), ONTARIO (CANADA), and ANN ARBOR (MICHIGAN) services known to be associated with LOSTSERVER and now LOOPBACK0.NETWORK domains employed in the child taking and concealment violating ORDERED POSSESSION.

The fraud supports a 2002-2019 human trafficking complaint against employees of ROBERT HALF TECHNOLOGIES, TEK SYSTEMS, TERRABOX, COGENT COMMUNICATIONS, NTT AMERICA, PCH.NET and parent group NTT GROUP of Japan.

Ongoing fraud appears intent on protecting FAIRWAY INDEPENDENT MORTGAGE COMPANY of Lewisville (Texas) from civil counter-suit in abuse to take, conceal, and injure a child for commercial extortion of a registered Oklahoma business and false prospectus to extort credit and securities fraud formally alleged in pattern of abuse from 2009-2022.

**NOTICE:
ILLEGAL CONDUCT TO EXTORT BY LOSTSERVER GROUP**

I

Effort to defraud the public in this matter is ongoing, and under \$16,000,000 civil suit for violation of Section 314 of the Uniform Interstate Family Support Act.

Contractors of ROBERT HALF TECHNOLOGIES, TEK SYSTEMS account manager, TERRABOX, and other firms pretending to be employees and equity owners of the prior firm are named in that complaint, in a pattern of sexual harassment and fraud to extort and blackmail in overt acts violating Federal Law.

Threats against employees and customers are consistent in this pattern of abuse, and already under criminal complaint.

False claims in that matter began in 1999, concerning fraud and theft by check warrant for A.S. served at 925 E 9th Street in Ada, Oklahoma; and have been reported to the Oklahoma Tax Commission as fraud since that first report.

The Extortion Letter mailed to 72 attorneys Sept 7 2011 naming the prior parties is on file in THE PONTOTOC COUNTY DISTRICT COURT.

Additional fraud January 28 2022 in identity theft letter was released to extort March 3rd 2022, one day after the death of the child's grandmother by the contractor named in the complaint and ORDERED POSSESSION violation, a premeditated child taking to perpetual concealment and commercial advantage across State borders denied all judicial review and ordinary trial not done, a Kelly v Kelly (2007, Oklahoma Supreme Court "automatic mistrial") violation.

Ongoing harassment using 3 false identities to extort are now under complaint, impersonating a HALLIBURTON employee in April 2022 and written public offer of sale of references for \$5000 USD per hire.

This harassment has led to the cancellation of a pilot program for the community after 2 years of development, in ongoing industrial interference and false claims to extort based on the prior ROBERT HALF TECHNOLOGIES employee fraud and false public claims.

Use of Cogent Communications to host these frauds at 'atlas', 'titan', 'patriot', 'harpoon', and 'saturn' servers - implicate the previous abuse with the present 2021 and 2022 actions supporting abuse of a child to extort by competitor services abuse of obtained body camera footage.

**NOTICE:
ILLEGAL CONDUCT TO EXTORT BY LOSTSERVER GROUP**

II

Such use of law enforcement video and medical and personal identifying information to extort in fraud concealing a child, distribution after the fact on YOUTUBE to extort and circulation with harassment of the alienated parent at their place of work and to blackmail, and illegal search attempt of our commercial office following sexual threats on TWITCH INTERACTIVE INC.

Abuse incorporates additional incidents of destruction of U.S. Mail in five vehicle strikes on Oklahoma busienss offices of the firm.

Abuse further incorporates now confirmed theft of U.S. Mail in December 2021 as of a January 2022 U.S. Postal Inspector letter.

COGENT COMMUNICATIONS per Security Exchange Commission (SEC) public record is an NTT Group entity and a liability of NTT GROUP assumed in use of the prior identity in threats.

The purpose of such fraud appears to impair ORDERED POSSESSION of a child for commercial advantage and to gain express cited written account of commercial employment in DALLAS TEXAS, DENTON TEXAS, and ANN ARBOR MICHIGAN; in combination with violation of Oklahoma Constitution ARTICLE XXIII section XXIII-1A and the Emmett Till Antilynching Act (18 USC 241 Revised April 2022).

**NOTICE:
ILLEGAL CONDUCT TO EXTORT BY LOSTSERVER GROUP**

III

Resulting discovery warrants termination of service to NORWAY, THE NETHERLANDS, SWEDEN, DENMARK, and ICELAND for fraud to extort in an ongoing child trafficking and intellectual property fraud themed FRAUDULENT CONVEYANCE violating Federal Civil Procedure Rule 18b.

Use of Children to Extort Intellectual Property Taking, Sale, Export Illegally, or other false title void all obligations and treaty enforcement by the victims of commercial genocide activity evident in this racist activity against Native American communities and persons in Indian Territory.

Use of impersonation of persons both living and dead to circulate a false guardianship, styled upon a simple medical power of attorney over the deceased family of the victim, are both incredible evidence of criminal malice of forethought, and fraud voiding all agreements of civil nature with those nations, their franchise activity in this fraud, and agency.

NATION OF JAPAN and PEOPLE'S REPUBLIC OF CHINA, represented by peer organizations assisting NTT in this abuse, appear to be the beneficiaries of this export and patent infringement activity in industrial espionage spanning August 2001 to 2022. Collateral claims of intellectual property by such sovereign nations will therefore be disbarred by the firm.

Specific competitors "SOFTBANK GROUP CORP" and "TENCENT HOLDING CO LTD" in joint leadership with "UBER" and "ALIBABA GROUP" appear to be primary claimants in this conduct, a subcontracting of NTT GROUP agency in STATE OF MICHIGAN and ANN ARBOR incorporated City, from which TEK SYSTEMS, TERRABOX, and ROBERT HALF TECHNOLOGIES employees were then subcontracted and employed in harassing activity to defraud Oklahoma companies and damage securities knowingly and in a pattern of extortion to defraud and impair credit and by false prospectus upon the taking, concealment, and abuse of a child to extort in public fraud.

EMPLOYEES OF THE PRIOR FIRMS are therefore BARRED from all communication and contact with RACCOON TECHNOLOGIES INCORPORATED, its employees, and their families citing fraud to impersonate such persons and blackmail activity in the concealment and abuse of a child to extort, incorporating HIPAA and GDPR violations afforded by ATLANTIC.NET and SHARKTECH.NET services and claims; alleged material accessory after the fact in the child taking and concealment to defraud themed in complaint a human trafficking activity.

IV

TECHNICAL COMMENTARY

It appears in review, that depref.net users in ICELAND, a client of a domain hosted by ATLANTIC.NET and SHARKTECH.NET, which are actually hosted on atlas.cogentco.com servers themed in the prior 2011 extortion and blackmail attempts including violence and murder described in 2007-2013 threats to the Oklahoma business owner and private investigator and Board of Directors; did January 28 2022 make false report of a demand to obtain surveillance footage and to release March 3rd 2022 such footage to blackmail.

The companies appear to be licensees of an IBM Redhat Inc. server product, and fraudulently style such technology derived from work by our firm as proprietary product owned and exclusive to their company; which are simply basic services and terms in the public regarding the underlying Linux operating system.

This pattern follows a prior use of "WINSOCK" and other terms like "LOOPBACK" to falsify brands and seek credit for common applications, in a fraud to extort and conceal software piracy in abuse of employer services and attacks upon computer networks in 2001, 2008, and 2017-2022 in concealment and abduction of a child violating ORDERED POSSESSION, a right not subject civil interference (Blacks Law, 11th Ed).

Human trafficking and false claims of proprietary ownership of terms to suggest or assert a monopoly are crimes in the State of Oklahoma.

Activity in this matter appears flagrant violation of "RIGHT TO WORK" laws supported by Denmark and The Netherlands union activity, for which a national sanction against foreign sovereign interference and blackmail to extort commercial franchise are evident, premeditated, and genocidal in language and nature toward the Native American people and ethnic traits of the State of Oklahoma and Indian Territory, themed on white supremacy arguments and "bad genes" and other "crazy Indian" racist slurs employed to damage Native People's rights and carry out genocide.

Use of identity theft and impersonation of persons living and dead in public written statements to defraud and offer false prospectus of a United States "C" Corporation further affirms a right to impose sanctions immediately and unconditionally under Title 22 and Title 76 of the Oklahoma Statutory Code, to void all claims at law in Title 78 of those sovereign nations employing these unlawful business tactics to defraud.
